

Thanks for registering for our first virtual National Chemistry Week Program!

We'll be doing 3 activities together during the session, so you'll need to gather up some supplies and have them ready when we start. [Page 2](#) gives the list of what you'll need. The optional items can be used after the session, or if you have a big table to work on, you might like to use them during the live program!

On [page 3](#) we've given a link to the American Chemical Society website so you can download a copy of *Celebrating Chemistry* (the booklet we usually distribute after our live sessions). Also provided is a link to a report that includes details on the activities that we'll do together, as well as several that you can do on your own after the program.

If your child is interested in participating in the Illustrated Poetry Contest, details are given on [pages 4-5](#). We'll discuss at the end of our session in case you have any questions.

Can't wait to see you!

Dr. Rose

Materials to have on hand

- Clear plastic or glass cup or jar
- Paper towel strip (approximately 4 in x 1 in)
- Pencil (or chop stick, craft stick or drinking straw...can use same straw for below)
- Felt tipped marker (washable...used for 2 activities; black usually works well)
